A short novella based in and around the rather disrupted working life of one Cal.Tennyson. Laced with many diverse stories both amusing and dramatic related to Cal's life as a member of the working class.You read this as it comes either enjoy it because the stories have real genius or walk away -just do not give its author schtick because your small mind maybe incapable of dealing with an alternative view point whether right or wrong. Just enjoy stop being so moral or self-justified about life..
